Genetics - Wikipedia

Transhumanism is not necessarily a bad thing, it is just a tool. It can be used for good or evil, like any tool. Unfortunately, most all transhumanists are materialists, so human beings, as well as animals, are not deserving of compassion, love, etc.

Transhumanism: Genetic Engineering of Man - the New

A comprehensive, coeducational Catholic High school Diocese of Wollongong - Albion Park Act Justly, love tenderly and walk humbly with your God Micah 6:8

ST JOSEPH'S CATHOLIC HIGH SCHOOL

In biology, a gene is a sequence of DNA or RNA that codes for a molecule that has a function. During gene expression, the DNA is first copied into RNA. The RNA can be directly functional or be the intermediate template for a protein that performs a function. The transmission of genes to an organism's offspring is the basis of the inheritance of phenotypic trait.

Conventional Breeding versus Genetically Modified (GM) Crops. For thousands of years farmers have used a process of selection and cross breeding to continually improve the quality of crops.

ActionBioscience - promoting bioscience literacy

Our knowledge of genetic variations has been so profoundly influenced by Mendelian genetics that it is difficult to speculate about the ways in which our thinking will need to change with further insights into genomics. We have far to go in teasing apart the multiple variables of complex traits and diseases, the relationships between hereditary, somatic and environmental factors, and in making ...
